

**West Blue Farm
Dave & Deb Welsch**

Near Milford, NE

West Blue Farm has been Certified Organic for their crops for many years. They produce corn, soybeans and alfalfa annually and have been rotationally grazing (mob) grazing their cow herd. They also direct market several beef from their cow herd and several hundred broiler chickens each summer.

**Pekarek Produce
Ryan & Katie Pekarek**

Dwight, NE

Pekareks grow several different vegetables sustainably for various farmers markets and grocery stores, and they have also marketed to the University Good Fresh Local Program for many years. They utilize several high tunnels and greenhouses in their production system.

**Renovated Old School House (District 10)****Mary Sohl**

Abie, NE - Mary will provide lunch from her certified kitchen.

**Larry Stanislav's Organic Farm**

Near Abie, NE

Stanislav, a certified organic farmer, has extensive crop rotation with spring wheat, corn, soybeans and cover crops used to control weeds and increase fertility. Stanislav has conducted on-farm research studies with the University of Nebraska on the use of flaming for weed management, the use of cover crops and crimping for cover crop termination on his organic farm.

Liz Sarno's Organic Pastures

Near Abie, NE

Grass-Finished Devon Cattle & Boer Goat Herd

**Abie Vegetable People****Mark Roh**

Near Abie, NE

Mark Roh is a market gardener. He will discuss his operation and the various crop rotations, pest control methods, on-farm processing and his storage facility.

The cost of this tour is **\$25 a person**. Please contact the Nebraska Extension in Nemaha County at (402) 274-4755 or email gary.lesoing@unl.edu or glesoing2@unl.edu for questions or to register.
